

JADEN GATTS (C'26)

My name is Jaden Gatts, and I am majoring in psychology with a minor in philosophy. I serve as the student president for the psychology department. In addition, I'm a student-athlete on the track and field team competing in the high jump. I am a 2x All-American, earning second and third place at the NCAA Division III Championships. Being involved in both academics and athletics has allowed me to build meaningful relationships and be part of an incredibly supportive community.

I've been blessed to receive several scholarships, which I am so grateful for. The small class sizes and the close community have really fit into my learning style and helped me thrive. The people here have created such an encouraging environment, and that sense of community is what makes UD truly special. After graduating, I plan to attend graduate school for clinical psychology. My goal is to serve veterans as a psychologist for the Department of Veterans Affairs, supporting their mental health and overall well-being.
