

A Safe Return for Spring 2022 at the University of Dubuque!

IN AN CONTINUED EFFORT TO PROTECT OUR MOST VULNERABLE, FACE COVERINGS WILL BE REQUIRED WHILE INDOORS AT THE UNIVERSITY OF DUBUQUE UNTIL FURTHER NOTICE.

This precaution will stay in place no longer than necessary until UD has a documented sense of virus activity as members of our community return to campus.

We highly recommend students get a COVID test prior to or upon returning to campus.

As we welcome students back to campus, you can expect:

- Face-to-face classroom instruction will continue. Remote class attendance will be available in limited and short-term situations.
- Continued support and encouragement of proven health and safety protocols across campus.
- Students will have access to COVID-19 tests and vaccines at the Smeltzer-Kelly Student Health Center. Visit www.dbq.edu for more information.
- Availability of single-use face coverings and hand sanitizer at stations throughout campus.
- Ongoing implementation of additional cleaning procedures of surfaces and high traffic areas.
- In-person student activities, performances, and intercollegiate athletics will continue.
- One-on-one personalized academic support and advising for students.

Smeltzer-Kelly Student Health Center has a comprehensive treatment team that includes medical and brain health professionals.

All students also have access to COVID-19 testing and vaccine options.

UD strongly encourages students, faculty, and staff to receive a COVID-19 vaccine. Please visit WWW.VACCINES.GOV to find locations that offer COVID-19 vaccines in the United States.

Students should go to the Smeltzer-Kelly Student Health Center for access to COVID-19 testing and vaccine options.

For additional information about exposure, isolation, or quarantine and getting tested for COVID-19, visit WWW.DBQ.EDU/COVID-19

To our new and returning students, UD welcomes you! We look forward to living and learning together — in person — at the University of Dubuque.
